**Michigan Attorney General Dana Nessel sent a 'cease and desist' letter to Big League Politics about their exclusive content #DetroitLeaks that outlined poll worker training wherein workers were bragging about committing voter fraud in a variety of different ways.**

**The intrepid reporter who broke this story, Shane Trejo, was also one who was a witness for the voter fraud in Detroit. Trejo says he considers this “witness intimidation” and is fearful that it will be used as pretext for some criminal actions.**

**In the shocking letter dated Oct. 28, the Michigan Attorney General cites to two or three factual errors in the bulk of Trejo’s reporting and demands on behalf of the Michigan government to take every single article related to #DetroitLeaks off the internet.**

Shane received the letter today. It was marked October 28.

**The #DetroitLeaks reporting shows Detroit poll workers who were trained in how to lie, trained on how to handle ballot challenges from Trump supporters, told to call 911 on any challengers and to use COVID as an excuse to deny poll challengers access to view the ballots as they were being counted and tabulated.**

**The series of leaks also revealed that even challenged ballots would be processed as regular ballots.** Incoming State Representative Steve Carra and Michigan activist Bob Cushman **filed a successful lawsuit against Michigan Secretary of State Jocelyn Benson** over the

explosive allegations that poll workers were being trained in how to commit voter fraud.

This information was **previously banned from YouTube, Twitter**, and other social media platforms.

**Multiple independent witnesses have approached the Gateway Pundit and confirmed that the predictions from #DetroitLeaks were accurate, and that the counting of ballots for Wayne County/Detroit at the TCF Center (aka Cobo Hall), was by poll workers who refused challenges from poll challengers, used COVID as an excuse to deny access to review the process, tabulated challenged illegal ballots, and fulfilled this voter fraud prophecy.**

With the electoral votes critical to the re-election of Donald Trump, this information will be critical to demonstrate the state of mind and intent of

the poll workers who delivered a very suspicious Michigan victory to Joe Biden.

**The timing of this letter coincides with another round of social media purges in Michigan of Facebook groups that might document and prove the allegations of voter fraud.**

I tried to post the link 3 times but Disqus removed it every time. I then replayed the video and took a recording of it with my phone, then emailed it to several people. If you haven't seen it yet, keep looking. If I find an archived version I'll post it.

I believe that. We all know there is no possibility Biden won. It's through voter fraud only, and on a mass scale.

If all illegal votes are tossed, with legal tallied, it will be a landslide.

The software "glitches" are going to be the most fruitful.

No. The software-glitches may help - but disqualifying ballots harvested and fake-filled is the key in PA, and other states.

**PhysicalGraffiti** ➔ Tom Davis • 11 hours ago

All combined, it'll knock Biden so far out of reach, he won't even be eligible for automatic recount.

It's easiest to prove glitches, hardest and more tedious to prove ballot by ballot fraud.

True. Fortunately, the mathematical analysis data is strong - and time-correlated. The "mail in ballots" tabulated early were one ratio Trump/Biden, but all the ones after the 4AM dumps were very different. They are shuffled like cards in the mail - should all
